He receives his directives concerning the implementation of the program directly from the Russian High Commission. The program is called "Staatsauftrag Netzgeraete und Geber II" (State order: Network Sets and Transmitters II). 1/ 2. Three-hundred P-50 tubes are to be used within the framework of the program. It is known that the P-50 tube is actually the East Cerman imitation of the LS-50 Telefunken tube, which is being developed in Plant II of the Terk fuer Fernmeldewesen HF, Berlin-Oberschoeneweide. 2/ The plan to procure LS-50 tubes from West Berlin because P-50 development has been delayed was dropped in accordance with a special order issued by the head of Main Administration RFT. Hegemann (fnu), around mid-December 1953. Regement cancelled all plans and steps already taken to procure LS-50 tubes. His motivation was the fear that the West would become aware of the East German jamming program if orders for large numbers of LS-50 tubes were placed in West Berlin. The program, thus, would lose its element of surprise. Together with the cancellation of LS-50 procurement, orders were issued to speed up development of the P-50 tube. 25X1 25X1 25X1 it is now known that the LS-50 tube is the Comment. 25X1 model for the P-50 tube 25X1
